## In the Claims

Please add the following new claims 8-15:

A video data recording and reproducing system for editing a source video data;

a video tape recording means for recording a source video data onto a tape medium with a first data rate during a recording period and for reproducing recorded source video data from said tape medium with a second data rate which is higher than said first transfer rate to generate reproduced video data;

a disc recording means for recording said reproduced video data onto a disc medium with said second data rate so that said source video
